## BEST PRACTICE- I

### 1) Title of the Practice: Law Fest

### 2) Objectives of the Fest:

- To boost the pragmatic thinking ability of the students.
- To bring out the hidden talents of the students and enable them to use such talents- while doing jobs or in their self-employment related activities.
- To boost them learning through effective participation.
- To boost the existing skills of the students.
- To boost the soft skills of the students such as effective communication, fluency in the language, presentation skills, eradication of stage fear which will make the student fit for the professional life
- To boost up the instant challenge-facing ability of the students.
- To develop and nurture leadership qualities and abilities among the students.

### 3) The Context:

Majority of our students come from less privileged section of the society. Various platforms are offered to manifest the hidden potential and mould them into confident individuals. The students need financial, psychological and emotional support which is provided in the institution for a holistic development of the student. Law course is a clinical legal education as its integral part that transforms law students into social engineer. The curriculum prescribed by the University will not be sufficient for the student's future professional tasks, for these reasons, the institution planned and adopted certain activities apart from regular curricular activities so as to drive them to take part actively in all the activities conducted in the institution.

### 4) Practice:

- All the faculties along with the student law forum members schedule the fest dates, theme, name of the fest, several competitions to be conducted.

- This fest is conducted as a week long programme without disturbing the regular schedule at the best.
- The students are boosted to organize the events class wise and finally the best organizing team will be awarded to encourage them to take part in organizing committee and get holistic development opportunities.

### **5) Evidence of Success:**

Most of the students show an improvement at the exit level as compared to the entry level. The college provides equity, inclusiveness. Today the students take part not only in curricular activities but also participate in other events like Cultural and Sports and as a result have bagged several prizes at various events conducted inter- college as well as in University Level.

### **6) Challenges encountered and resources required:**

Time constraint is the major problem to conduct the various activities due to semester system. Knowledge is Power is the motto of the institution. Steady efforts are made to conduct all the activities to empower the students in an holistic manner. As majority of the students come from mother tongue medium of language in lower classes, which throws a tough challenge for the teachers in making the students shift to English medium and take part in several competitions. Hence they are provided to take part in mother tongue language.

Majority of the students in the Institution hail from rural areas situated in the outskirts of Chitradurga town because of which they face issues in travelling which effects their participation in various competitions. To encounter this, Teachers made themselves available to monitor the activities to be conducted within the time span provided as scheduled.

Economically our students are facing crises and are unable to adopt several properties to perform in an extra-ordinary level, even though they are talented, hence the Institution will be providing such support to take part in the University level.

# **REPORT OF KOUSTHUBA LAW FEST**

# **Koustubha Law Fest 2023-24**

## **Inaugural Program**

**Date: 19.02.2024**

From 19<sup>th</sup> February to 24<sup>th</sup> February 2024 a colourful and memorable “Koustubha” Law Fest was organized in Saraswathi Law College, Chitradurga. College fests are an essential part of campus life that brings students together for a fun-filled event. It is a time when the campus is alive with energy, and students get a break from their routine academic schedules. A college fest is not only about fun and entertainment, but it also has a positive impact on the campus culture and community building and of course very useful for the holistic development of the students. The minute one set foot in the college campus, one could feel the vibrancy. The tone of decorations was very festive as one entered. The Dias had been decorated with a Huge Glittering flex comprising the theme of the festival.

This event was a week long program and the most awaited event for the students. The event was diligently organized. It is the personality and character of the college that shapes the experiences of students, faculty, and staff. A college fest provides a platform to showcase the unique culture of the college. Students can exhibit their talents and skills in various competitions, and cultural events showcase the diverse backgrounds of the students. It helps in fostering a sense of pride and belongingness towards the college.

The special invitee Master Siddharth Gowda G. Patil and his Parents were honoured by Peta, Shawl, Garland and Mementos, it was followed by felicitation to the students who were participated in Model Legislative Assembly Competition and secured different prizes.

Smt. D. K. It brings students, faculty, and staff together on a common platform, providing them with an opportunity to interact and get to know each other better. Such events encourage students to come out of their shells, interact with others and make new friends.

Prof. Dr. M. S. Sudhadevi, Principal, Saraswathi Law College, Chitradurga gave her presidential remark and said a college fest is also an excellent opportunity for students to develop their leadership and organizational skills. Organizing a college fest requires a team effort, and students learn to work together towards a common goal. It helps students to develop skills such as time management, communication, and problem-solving, which are essential for their future careers.

## Up-Cycles:

Up-cycling is a powerful tool in the fight against fashion waste. By repurposing old clothing into new, stylish pieces, up-cycling extends the life of textiles, reduces the demand for new resources, and minimizes the environmental impact of fashion production. Up-cycled art is essentially the practice of repurposing recyclable waste in order to turn it from something that is unwanted to a creative piece of genius, with this thought 3 years 5<sup>th</sup> sem., students had organized the event up-cycling competition. ## **Fourth Day Events of Koustubha Law Fest**

**Date: 22.02.2024**

The formal ceremony of the fourth day of this Koustubha Law Fest was shaded with Green Colour dress code where the students, staff and everyone were dressed up with the pretty green colour of different shades. The day started with Debate competition. The primary objective of the Debate competition was to encourage participants to harness their Rigorous and Critical Thinking, Academic skills, Mental and Emotional maturity. The Debate Competition was organized by Three years 1<sup>st</sup> sem., students in a most enthusiastic way. Around 25 students took part in this event.

Rules for **Debate competition:**

- State the facts, not just your personal opinion. Anything related to Law or citation.
- Respect your opponents: healthy debates leave space for both sides to be heard.
- Speak, don't shout. Turning up the volume will not make your argument more convincing.
- Don't interrupt, while the other person is speaking.
- Tap in, if you would like to step forward with an idea, gently tap someone on the shoulder who is sitting on the bench. This signals that you are ready to take a turn without disturbing the debate.
- The team supporting the motion must not shift its point of view. ...
- If a speaker makes a statement, they must be able to provide evidence or reasons to support the statement.
- Facts presented in a debate must be accurate.
- Speakers may not bring up new points in a rebuttal speech.

To begin with, each participant spoke their mind on topics that led to a wide spectrum of contrasting views which were maturely tackled by the opponent team. Facts represented by participants were accurate and expressed in decency language. The event was concluded maturely.

**Mime Show Competition:**

Mime is an art or a technique of portraying a character, mood, idea, or narration by gestures and body movements. Mime competition on the theme 'Social Awareness' was organized by Three years 3<sup>rd</sup> sem., students. The competition was adjudged under the criteria of story weaving, coordination, execution and overall effect. There were 5 teams and all of them performed wonderfully well. Participants depicted the theme with their magnificent dramatic performance, brilliant gestures and body movements, but we were

awestruck by the performance put up by each team as they spellbound the audience with their fabulous act portrayed with such ease and conviction.

Rules for Mime Show Competition:

- A team of 8-10 members are allowed in a group.
- The act should not contain any dialogues or lip sync.
- Background music is allowed.
- The theme should not be announced and should only be conveyed through gestures and movement.
- Contestants will be disqualified if act contains any offensive disrespectful actions or gestures.
- Duration: Maximum time limit is 10 minutes
- Negative points for exceeding time limit.
- Properties are not allowed.
- Judgment will based on the novelty of the idea and decisions of the judges are final.

Mastering the use of facial movements to express emotions is essential to not only acting but to communication in general. Body Movements: How someone walks, sits, stands and holds themselves communicates a lot about who they are and how they feel. In mime, to show sadness, a student might walk slower and slouch. Overall it was a great show as each team tried their level best to leave the impact on the audience spreading social awareness.

### **Super Minute:**

The event was diligently and successfully organized by Three years 3<sup>rd</sup> sem., students. It witnessed an overwhelming response of 81 participants and was a magnificent success. Super Minute games are one minute games which are fun activities requiring participants to complete a challenge within sixty seconds. Example includes Gravity game, Face the Cookie, Scoop It Up, There She Blows etc., attracted a huge crowd. These games make excellent team building activities since they require a few supplies and a short time to plan.

These challenges are similar to Minute to win it games. These games are examples of fun team building exercises for work, team meeting games, quick and fun office games, quick and fun office games, and team building games without much efforts. These ideas are ways to improve team cooperation in all the activities.

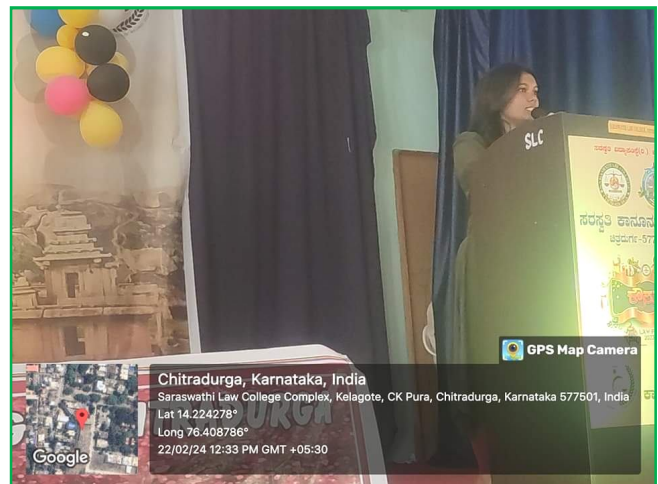

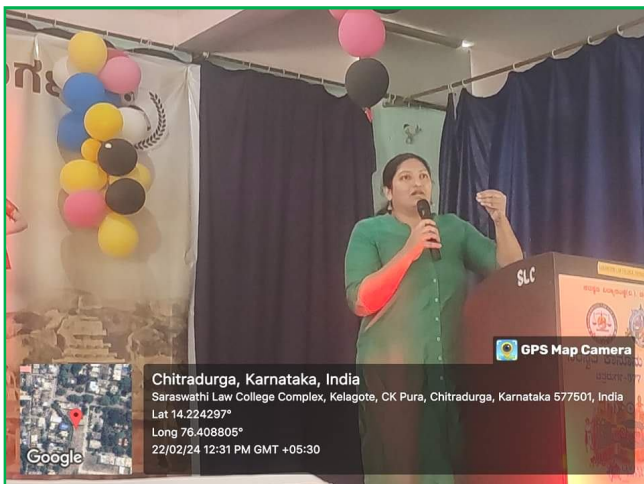

## The way few games played are:

### 1. Face the Cookie

Face the Cookie game is one of the best one minute party games. You only need a few tiny cookies. You can start by handing all players one cookie apiece. Then, instruct players to place the cookie on their forehead, ensuring that it does not fall over. Players will then use their facial muscles to move the cookie to their mouths. You can eliminate any participants who do not manage to move and eat the cookie within the one minute timeframe.

### 2. Gravity Game

The Gravity Game is a simple game that adults and kids alike will enjoy. You need to pass two balloons to each player. Then, let participants blow out the balloons and set the timer. Players will toss the two balloons in the air and keep them up without using their hands. Since the gravity game may need participants to move around, get a large space that will accommodate all players.

## **Fifth Day Events of Koustubha Law Fest**

**Date: 23.02.2024**

The fifth day Koustubha Law Fest Grand Show began with an energetic welcome delivered by Dr. N. D. Gowda, Assistant Professor, Saraswathi Law College, Chitradurga. The dress code for the day was Blue and most of the students were dressed up in different shades of blue. It began with the **Quiz Competition**. This Quiz teams were selected from the highest scorer of the Written Qualifying Quiz participants. There were altogether six teams selected, 2 members in each team.

The goal of the Event Quiz competitions is always interesting and informative, which keeps the students interested. The primary goal of this event is to educate them on current general knowledge in Law, Science and Technology, Current Affairs, Sports, Business, and Entertainment.

Faculty members and students attended the event with all their hearts. The quiz was divided into six rounds:

1. Question and Answer Round – Current Affairs, General Knowledge, Law.
2. Multiple Choice Round - which based on Sports, Constitution, Political Science, Sociology, Economics

The level of competition was kept on par with competitive exams to assist students in their academic careers and future job opportunities as well as entertaining too. The students appreciated the Faculties efforts to broaden their knowledge and learning.

### **Just a Minute:**

Just a Minute, popularly referred to as JAM is an innovative way of testing the speaker's presence of mind, fluency of language, ability to connect their thoughts on the given topic and overall communication skills of the participants. Keeping this in mind, Five years 3<sup>rd</sup> sem., students organized JAM Competition. The participants took up the challenge wholeheartedly and spoke on various given topics, showcasing their logical flow of thoughts, coherence of ideas, spontaneity and general knowledge in just a minute,

which impressed the judges and the audience too. The contest enriched one and all. The students found the competition fun-filled and educative.

**Rules of Just a Minute Competition:**

- The person must speak on the subject from the piece of paper .
- Time limit is one minute.
- Speaker must speak without repeating a word.
- Without deviating from the subject.
- Without pausing for too long.
- Speaker can score points by correctly challenging a player when they mess up.

This kind of Competition helps the students to develop confidence by challenging them to speak in a light-hearted setting, but in front of an audience of their classmates and their teacher. Successfully completing the one minute is a sure sign that the student's ability to speak spontaneously-without note or preparation – is improving. It is also good fluency practice, requiring the quick recall of appropriate vocabulary; this is especially true if the teacher gives bonus points for especially impressive word choices.

**Best Friends Competition:**

You see your best friend all the time, plus you talk and also have insights into each other's thoughts and ambitious goals. This competition is delightful way to deepen the bond between friends by uncovering shared memories, preferences, and inside jokes. It typically consists of a series of questions designed to reveal how well friends truly know each other. From favorite movies and childhood dreams to quirky habits, the best friend competition encourages laughter and reminiscence. It's not just a test of knowledge but a celebration of the unique connection two individuals share. With this whole concept Three years 5<sup>th</sup> sem., students organized Best Friends Competition. Around 26 teams took part in this event.

**Rules for Best Friends Competition:**

- Two Participants in a team.
- Two games for each Team, One for eligible and another one for main game.
- Questions will be asked for main game.
- Judges decision is final.

Taking part in this event often leads to heart-warming discoveries and reinforces the special camaraderie that defines true friendship. Whether taken for fun or as a nostalgic trip down memory lane, the best friend

competition is a light-hearted activity that strengthens the foundation of enduring friendships.

## BEST PRACTICE- II

### 1. Title of the practice: Mentorship Mechanism

#### 2. Objectives of the Practice:

- To minimize dropouts
- To improve performance
- To reduce stress of the students through personal counselling.
- To Increase the participation of all students in the different activities conducted by the Institute.

The Mentoring system assigns a faculty member to every student. The faculty member is called the mentor for the student. The mentor plays the role of a personal mentor for the student in all matters. For the institute, the mentor is the first point of reference for all matters concerning any specific student. The mentor guides the student at every step of their stay at the institute to be successful at whatever the student takes up. The mentor personally ensures that the student is aware of all the resources available to the student during their course of study at the institute. The mentor is available to counsel the student in any matter of concern apart from the curriculum also.

#### 3. The Context

Students undergo various problems of stress- personal, academic, physical, mental. Students are new to professional college life. It creates a lot of stress, especially to hostel students who are away from family for the first time. Students from educationally weak background feel complex and hesitations in class and unable to perform well due to inhibitions. The Mentoring system is relatively new in general to a student entering the institute. The students do take some time to familiarize and feel more comfortable with their mentors and most importantly develop confidence in them. The students meet their mentors to consult with them regarding the courses to take and to guide them through the registration process. The students might also choose to meet their mentors more regularly for advice regarding matters which may be extra- or co-curricular or otherwise. In addition, the mentor

might also choose to see any student with more regularity when their academic performance concerns the mentor.

#### **4. The Practice:**

- Each teacher is assigned around 60-65 students for the complete duration of their study.
- They meet at least once a month to discuss, clarify and share various problems which may be personal or academic, etc.
- The mentors encourage the students to participate in co-curricular and extracurricular activities and sports.
- The mentors also counsel the students in need of emotional problems.
- Mentors take special care of weak students, who are given advice on how to study, prepare a time table for study and clarify the doubts and also given notes to study
- Student problems are discussed in the staff meeting with other faculties and necessary action taken to solve it.

A mentor is the first point of reference for the activities of a student during the complete course of study at the institute. As soon as a student enters the institute, a faculty member is assigned to take over the role of a mentor for the student. The mentor not only guides the student in academic matters but also any matter of concern for the student. The student seeks the advice of the mentor at every step of their course of study beginning from the registration for courses at the start of every semester. The students meet their mentors regularly. However, depending on the need, mentor conducts more meetings with their students. The mentor educates the student about the various course requirements, such as the mandated minimum and maximum course load every semester, and how to choose electives.

The mentor helps the student channel their interests and energies effectively during the complete course of study at the institute. The students meet their mentors for various reasons, like - extra help with the material in a course and are shy to approach a new instructor assigned to the course. Few might be facing problems adjusting to the new environment may be in the hostel or at other places around the institute; some others would like to know about their options of availing various resources at the institute. Students would like to know about their options for going through internships during the break or even the benefits of the same, few might want to do some clinical course work or participate in various competitions in addition to their courses, some other might want to know their options after graduation and how to figure out where they would fit in better. At times the students might just need someone who can give them personal time and attention by listening to their

struggles in transitioning to a higher education environment and finally in becoming a constructive member of society.

## **5. Evidence of success:**

The most important evidence of success for the mentorship program is the behaviour of the students on the campus in general has witnessed a tremendous improvement and the students are much happier and contended with their course of study at the institute after the implementation of the mentorship program. The pass percentage and the average academic performance of the students have also achieved greater heights with the mentoring system. Some students have presented themselves as quite a challenge for their mentors, but they figure out their priorities and start performing better after counseling sessions with their mentors. The students have been at most risk during their initial Stages in the course of study. The mentoring system has addressed the needs of the students and effectively nurtured many students during the duration of its implementation. Apart from these, there is an improved attendance, less drop outs, increased participation in co-curricular and extra-curricular activities, better discipline on campus and respectful relationship between teachers and students. The students are more relaxed and have a healthy relationship with the staffs.

## **6. Problems Encountered and Resources Required**

There were initial problems in creating mentorship programme. One challenge was identifying mentor mentee compatibility. Another major problem revolved around creating a system for interacting student with mentor in the institution. There were also instances where faculty failed to understand the level of student understanding in the class room where mode of teaching is not satisfactory for student to understand. Resources required which supports for mentoring like mutual contact, group discussions, meeting with parents, software tools, audio, video lecture systems are Incorporated.
