Soft Skills

Saraswathi law College with a vision to enhance the soft skills for the students, soft skills are the people skills, personality skills, our college organizes Soft Skills courses for its students, as the institute is aware how soft skills serve to represent their approach to life and work. Soft skills are interpersonal skills hardwired to an individual's personality.

The objectives of the Soft skills

- To help formulate problem solving skills,
- To guide students in making appropriate and responsible decisions,
- To create a desire to fulfil individual goals, and
- To educate students about unproductive thinking, self-defeating emotional impulses, and self- defeating behaviours.

Duration: 1 week

Total of 6 Modules

1. Leadership
2. Interpersonal skills.
3. Adaptability.
4. Teamwork
5. Problem-solving.
6. Time management

As a soft skill, adaptability requires a number of other soft skills in order to be applied successfully. You must be able to learn quickly and put that learning into practice. Additionally, you must be able to recollect what you've discovered, so you can identify trends and make decisions accordingly.

Ref No. 1. Leadership

Date : 28-10-2024

As a leader, it's important to show your team the value of setting goals. When employees have clearly defined goals, they can become more efficient, productive and motivated to exceed the company's expectations.

Leadership development goals

We spoke with a number of business owners and leadership experts to identify the top development goals every leader can work toward. Keep in mind that the leadership qualities you need to develop will depend on your specific expertise and skill level.

Become an active listener. An effective leader facilitates a culture of clear communication and actively listens to what their team has to say, Enter every conversation with the intention of listening to your team's insights, whether those are positive or negative.

Be adaptable to change and growth.

Instead of assuming you know everything, set a goal of being adaptable and open to learning. Openness to change puts you in a better position to successfully run your company. This is especially important during periods of economic restructu

2. Interpersonal skills:

Interpersonal skills will help you understand the behaviour and coordinate with others. Students with strong interpersonal skills easily build relationships with others, interact empathetically, resolve conflicts effectively and enjoy their lives.

3. Adaptability:

Adaptability is an essential soft skill that will make you flexible in your daily life. It shows your readiness to accept new things – be it a project, role or new environment. So, if you are planning to study abroad and are adaptable to changes, you can easily adjust to different learning and teaching patterns used in different universities.

5. Teamwork:

Teamwork enables information exchange and seamless communication between different groups, which ultimately helps in achieving pre-defined goals. Because working in teams or groups is an essential part of degree courses, developing this habit during the academic years is a sure-fire way to career success.

6. Problem Solving:

Regardless of the course you are studying, problem-solving skills are always valued throughout student life. These skills determine your ability to think critically, identify potential problems and develop solutions for combating them. Moreover, being a problem solver implies that you are creative and competent in solving problems with out-of-the-box solutions. It will be an added advantage because creativity is one of the most in-demand soft skills besides adaptability and collaboration,

7. Time Management:

A better understanding of time management helps students to work while studying without facing any challenges. Students with good time management skills can handle multiple tasks and perform exceptionally well in all spheres of life.
